Business Continuity Disaster Recovery

Capulus Technologies - Business Continuity and Disaster Recovery Plan
Version 2.0 - Effective January 1, 2024

1.0 Objectives
• Ensure critical business functions (especially Smart Policing and Smart City services) can continue during and after a disruption.
• Minimize data loss and downtime.
• Protect employee safety and company reputation.

2.0 Scope
Covers all Capulus offices, data centers, cloud services, and remote workers.

3.0 Recovery Time Objectives (RTO) and Recovery Point Objectives (RPO)
System / Function | RTO | RPO

| ---------- | ----- | ----- |
Core AI services (policing) | 4 hours | 15 min

Customer-facing portals | 8 hours | 1 hour

Internal IT (email, HR systems) | 24 hours | 24 hours

Financial systems | 12 hours | 4 hours

4.0 Incident Response Phases
4.1 Detection and Activation
• Any employee can report a disruption (IT outage, cyberattack, natural disaster) to the Incident Response Team (IRT).
• IRT lead declares a crisis and activates the plan.

4.2 Communication
• Internal: Slack #business-continuity channel, email updates.
• External: Customers notified via status page; key clients contacted directly.
• Media: Only designated spokespersons communicate publicly.

4.3 Recovery Procedures
• IT Systems:
• Failover to secondary data center or cloud region.
• Restore data from encrypted backups (tested quarterly).
• Remote Work: All employees can work remotely if offices are inaccessible.
• Alternative Sites: Pre■arranged co■working spaces in major cities.

4.4 Resumption and Lessons Learned
• Gradual return to normal operations.
• Post■incident review within 30 days; update plan accordingly.

5.0 Backup Requirements
• Critical data: Backed up every 4 hours, stored in two separate geographic locations.
• Non■critical data: Daily backups.
• Backups are tested monthly for restore capability.

6.0 Training and Testing
• Tabletop exercises: Twice per year.
• Full■scale drill: Annually.
• New employees receive BC/DR awareness during onboarding.

Plan Owner: Chief Information Security Officer (CISO)
