Customer Engagement Solution Delivery

Capulus Technologies - Customer Engagement and Solution Delivery Policy
Version 1.0 - Effective January 1, 2024

1.0 Purpose
To ensure consistent, high■quality engagement with our clients (police departments, city governments, enterprises) and successful deployment of Capulus solutions.

2.0 Engagement Models
2.1 Standard Engagement
• For commercial enterprises adopting Vision AI.
• Includes: Kick■off, implementation plan, training, go■live support, quarterly business reviews.

2.2 Public Sector Engagement
• For law enforcement and smart city projects.
• Includes additional steps: data privacy workshops, community stakeholder meetings, compliance audits, and ongoing ethics oversight.

3.0 Solution Delivery Process
3.1 Kick■off and Planning
• Participants: Capulus project team, client stakeholders.
• Deliverables: Project charter, communication plan, risk register, data sharing agreement.

3.2 Implementation
• Activities:
• Environment setup (cloud or on■prem).
• Data integration (e.g., CCTV feeds, crime records).
• Model customization (if needed).
• User acceptance testing (UAT) with client personnel.
• Deliverables: Configuration documents, test reports.

3.3 Training and Change Management
• Audience: End■users (officers, city planners), IT staff, administrators.
• Materials: User manuals, quick reference guides, e■learning modules.
• Follow■up: 30■day post■training check■in.

3.4 Go■Live and Hypercare
• Go■Live: Phased rollout or big bang based on risk assessment.
• Hypercare: Dedicated support for first 2 weeks; daily stand■up meetings.

3.5 Ongoing Support and Reviews
• Support Tiers:
• Tier 1: Helpdesk (24/7 for critical systems).
• Tier 2: Technical support.
• Tier 3: Engineering escalation.
• Quarterly Business Review: Review KPIs, roadmap, customer satisfaction.

4.0 Customer Responsibilities
• Designate a single point of contact.
• Provide necessary data and access in a timely manner.
• Ensure end■user availability for training and testing.
• Comply with all data protection laws.

5.0 Success Criteria
• Customer Satisfaction Score (CSAT): ≥ 4.5/5 at 90 days post■launch.
• System Uptime: ≥ 99.5% (excluding scheduled maintenance).

• Adoption Rate: ≥ 80% of targeted users active within 3 months.

6.0 Escalation Path

Issue Severity | Definition | Response Time | Escalation Contact

| ---------- | ---------- | ---------- | ---------- |

Critical | System down, data breach | 15 min | VP Customer Success

High | Major feature broken | 4 hours | Customer Success Manager

Medium | Minor bug, question | 2 business days | Support Team

Low | Enhancement request | 5 business days | Product Manager
