Data Privacy AI Ethics Policy

Capulus Technologies - Data Privacy and AI Ethics Policy
Version 1.0 - Effective January 1, 2024

1.0 Purpose
Capulus Technologies is committed to protecting personal data and ensuring that our AI solutions (Smart Policing, Smart Cities, Vision AI) are developed and deployed ethically, transparently, and without bias.

2.0 Scope
This policy applies to all employees, contractors, and partners who handle personal data or develop AI systems on behalf of Capulus.

3.0 Data Privacy Principles
3.1 Lawful Basis
• We process personal data only with a valid legal basis (consent, contract, legal obligation, etc.).
• For law enforcement data, we comply with all applicable regulations (e.g., local policing data laws).

3.2 Data Minimization
• Collect only the data necessary for the specified purpose.
• Anonymize or pseudonymize data whenever possible.

3.3 Storage and Retention
• Personal data must be encrypted at rest and in transit.
• Retention periods are defined per data category and enforced via automated deletion.

3.4 Data Subject Rights
• We honor rights to access, rectification, erasure, and portability.
• Requests must be submitted to privacy@capulus.com and processed within 30 days.

4.0 AI Ethics Principles
4.1 Fairness and Non■Discrimination
• AI models must be tested for bias across race, gender, age, and other protected attributes.
• Disparate impact analysis is mandatory before deployment.

4.2 Transparency and Explainability
• Decisions made or supported by AI must be explainable to end■users (e.g., police officers, city planners).
• For critical decisions, a human■in■the■loop is required.

4.3 Accountability
• Each AI system has an appointed "AI Ethics Owner" responsible for ongoing monitoring.
• Regular ethics reviews are conducted quarterly.

4.4 Robustness and Security
• AI models must be resilient to adversarial attacks.
• Continuous monitoring for data drift and performance degradation.

5.0 Roles and Responsibilities
• Data Protection Officer (DPO): Oversees compliance with data privacy laws.
• AI Ethics Board: Reviews high■risk AI projects; members include legal, engineering, and external advisors.

6.0 Breach Reporting
Any suspected data breach or ethical violation must be reported immediately to privacy@capulus.com and the AI Ethics Board.

Review Cycle: This policy is reviewed annually or after any major regulatory change.
